

Amendments to the Specification

Please delete the current Title of the Application and replace it with the new Title of “Methods for Providing Genomic Clones.”

At the end of the specification, immediately preceding the claims, please insert the text from the file “IVGN334.ST25.txt” submitted herewith. The file contains a new sequence listing according to 37 C.F.R. § 1.821-1.825 and does not constitute the addition of new matter.
